Speed in itself wasn't unusual – many players were quick – but quick players were usually \_\_\_\_\_ and therefore prone to getting knocked around by \_\_\_\_\_ and losing \_\_\_\_\_. But Kylian was naturally \_\_\_\_\_. He was quick and strong – a \_\_\_\_\_ combination – so there was no knocking him off the ball, even if you could catch up with him.

## Number 7, Mbappé, is at it again! Imagine you're a commentator on the radio.

Describe what's happening in these two moments. Use your imagination when it comes to teams, what's at stake, and the outcome. (Once you've written it, you could even record it on your phone!)
